

SUPPOSITORIES GLYCEROL PRODUCTION LINE

Equipment Brief introduction:

Powder Filling machine is Aipak company developing a complete production equipment for customer, Production line composed by Bottle unscrambler and Powder filling stoppering and capping machine; This production line can effective completion arrange bottle, Single or double screw filling, Vacuum stoppering, Add cap, Capping etc production processes;

Whole machine design reasonable, This machine performance stable, Machine has been widely used in the pharmaceutical industry.

Product No	APKFSJ	
Applicable specification	0.03-2g	1-10g
Production speed	Single head:35-50 b/m Double head:50-80 b/m	
Stoppering and add cap pass rate	>99%	
Filling error	±3%	
Power supply Pysers	220V, 3.5KW	
urif comp re s d ai pre sure and air consumption	0.6-0.8MPa,10-30m ³ /h	
Weight	1500KG	
Dimensions	4000×2000×1750mm	5000×20

		00×1750 mm	
Product No	SGGY-4	SGGX-8	
Applicable specification	5-50ml		
Filling error	±1~2%		
Production speed	40-50?b//m	80-100b?//m?	
Airpressureand air consumption	0.5-0.8MPa 10-15m³/h	0.5-0.8MPa 20-30m³/h	
Power supply	380/220V/ 6.0KW	380/220V?8.0KW	
Whole line weight	1500KG	1800KG	
Dimensions	4500*1800* 1800mm	6000*1800*1800mm
